California Dental Support Center

A program of California Rural Indian Health Board Inc.

Funded by a grant from Indian Health Services

Our Mission

Reduce tooth decay in Native American infants and young children. Provide education, training, technical assistance and resources to California Tribal and Urban dental clinics to better serve the Native Communities.

Our Goals

- Clinic based initiatives to prevent caries in infants and toddlers
- Community Based initiatives to enhance prevention among pre-school children
- Provide continuing education and training for Dental Health Professionals in tribal and urban Indian health programs

Our Services

- Educational presentations to Dental Medical and the Head Start staff, Parents and the Community
- Provide Dental Sealant Certification trainings to Registered Dental Assistants
- Provide patient education and clinical resources to Tribal & Urban dental clinics in California
