

Disaster Mitigation (G393)

Dates: May 9-11, 2017

Location: Eureka, CA

EMPG Funded Course: Must meet enrollment qualifications.

Coastal Region Only

Disaster Mitigation (G393): This course provides resources for mitigation activities fundamental to reduce and eliminate long-term hazard risks. Participants will understand their roles and responsibilities to develop and implement a mitigation strategy to reduce the impact of disasters.

In this course, participants will learn the tools and techniques for developing or enhancing an all-hazard emergency operations plan.

The core curriculum includes the following subjects:

- Mitigation Plan issues in natural and human-caused disasters

- The development of the Local Hazard Mitigation Plan (LHMP)
- The Hazard Mitigation Grant Program (HMGP)
- The Hazard Analysis Process
- The State of California Hazard Mitigation Plan
- The Role of FEMA in Mitigation
- The Role of the State of California in Mitigation

Course Length: 20 hours

Course Code: G393-5-16

***Limited space available, reserve your spot today.**
