

# CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #28 APRIL 20, 2020

## DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 2.31 million with more than 157,000 deaths.

The total number of cases in the U.S. increased from 661,712 as reported on Friday, 4/17/2020 to 746,625 reported today. The number of deaths increased from 33,049 to 39,083.

The Tribal Emergency Preparedness and Response Program (TEPRP) provides technical assistance and training to Tribes and Tribal Health Programs on hazard emergency preparedness planning and response. Tribal leaders and clinic administrators may contact [Corinne.Chavez@dhcs.ca.gov](mailto:Corinne.Chavez@dhcs.ca.gov).

National Indigenous Women's Resource Center is hosting a virtual "Conversation with the Field: Understanding the Needs of Domestic Violence Victims, Victim Service Providers and Indian Tribes During COVID-19 to Inform Tribal and Federal Responses," on 4/14, 4/17 or 4/21. Register: <https://register.gotowebinar.com/rt/2194171516892944139>

The town hall will allow public health nurses, community health representatives (CHR), health educators, and others working on the frontlines of COVID-19 prevention in Indian Country to discuss the current state of COVID-19 disease; highlight community-based response activities; provide information on key resources; and have Q & A with the experts. Click [here](#) to register.

The California Area Indian Health Service (IHS) has reported that 51 California Tribal or Urban Indian Health Program patients have tested positive for COVID-19 as of 4/18/2020.

### California Tribal Nation Grant Fund

The California Tribal Nation Grant Fund COVID-19 Emergency Grant is available to eligible Tribes to prepare for and respond to COVID-19. These grant funds may be used to fund programs, supplies, and actions taken in response to guidance of public health officials to address the threat of COVID-19, so long as those initiatives are not otherwise funded or provided by sources outside of the Tribal Nation Grant Fund.

For more information: [http://www.tngf.ca.gov/covid\\_grant.html](http://www.tngf.ca.gov/covid_grant.html)

Attend the technical assistance call on Tuesday, 4/21 at 1p.m. to field questions on the grant. Panel Members should send a tribal designee in their place if their Tribes have questions to comply with Bagley-Keene requirements.

Dial in: (916) 573-2034 Meeting #: 655382320

### National Indian Council on Aging (NICOA)

NICOA is convening weekly calls with all Title VI grantees about COVID-19 to provide updates to Tribal programs and provide an opportunity for Tribes to discuss the impact of COVID-19 in communities. Administration for Community Living (ACL) staff will be on all calls, as will resource centers from NIEH, the University of Alaska, the University of Hawaii, and the University of North Dakota.

Weekly on Fridays at 3:00 p.m. EST.

Join By Phone: 202-774-2300, Code: 990 715 504

For more information: <https://olderindians.acl.gov/COVID-19>

## UNITED STATES

### COVID-19: U.S. at a Glance\*

- Total cases: 746,625 (1,282 probable)
- Total deaths: 39,083 (4,226 probable)
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

\*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

The position statement included a case definition and made COVID-19 a nationally notifiable disease.

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

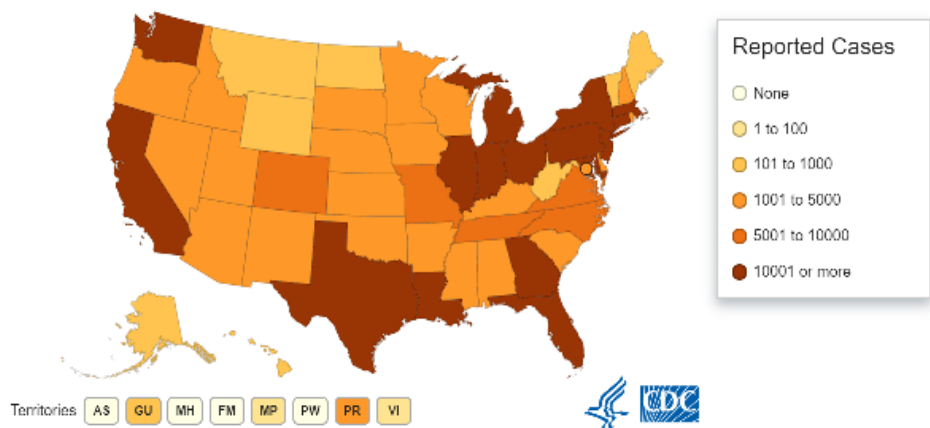

A probable case or death is defined by:

- i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or
- ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or
- iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19.

State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

### Public Health Laboratory Testing

As of the evening of April 19, the total number of PHL that have completed verification and are offering testing is 97. This includes one or more PHL in 50 states plus the District of Columbia, Guam, and Puerto Rico.

# CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #28 APRIL 20, 2020

## COVID-19 CASES BY IHS AREA AS OF APRIL 18, 2020\*

	NEGATIVE CASES	POSITIVE CASES	TESTED
NAVAJO	3,325	1,004	4,976
ALBUQUERQUE	794	223	1,811
OKLAHOMA CITY	2,200	99	2,752
PORTLAND	727	77	786
PHOENIX	596	129	836
CALIFORNIA	564	51	729
GREAT PLAINS	287	22	353

BILLINGS	1,776	19	1,944
NASHVILLE	810	50	1,143
ALASKA	792	11	1,449
TUCSON	447	10	547

\*as of 7PM EST April 18, 2020

## CALIFORNIA

As of April 19, 2020, there are a total of 30,978 positive cases and 1,208 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 573 cases
- Age 18-49: 14,690 cases
- Age 50-64: 8,385 cases
- Age 65 and older: 7,267 cases
- Unknown/Missing: 63 cases

Gender of all confirmed positive cases:

- Female: 15,224 cases
- Male: 15,507 cases
- Unknown: 247 cases

In order to better focus public health resources on the changing needs of California communities, beginning on March 18, the state is no longer collecting information about California travelers returning from countries that have confirmed COVID-19 outbreaks. Community transmission of COVID-19 has been identified in California since late February, and since early March, most of the confirmed cases in the state were not related to travel outside of the United States.

Twenty-two public health labs in California are testing samples for COVID-19. These labs include the California Department of Public Health's Laboratory in Richmond, Alameda, Contra Costa, Humboldt, Long Beach, Los Angeles, Monterey, Napa-Solano-Yolo-Marin (located in Solano), Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Clara, Shasta, Sonoma, Tulare and Ventura County public health laboratories. The Richmond Laboratory will provide diagnostic testing within a 48-hour turnaround time. This means California public health officials will get test results sooner, so that patients will get the best care.

## INDIAN HEALTH SERVICE CALIFORNIA AREA

729 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 4/18/2020.

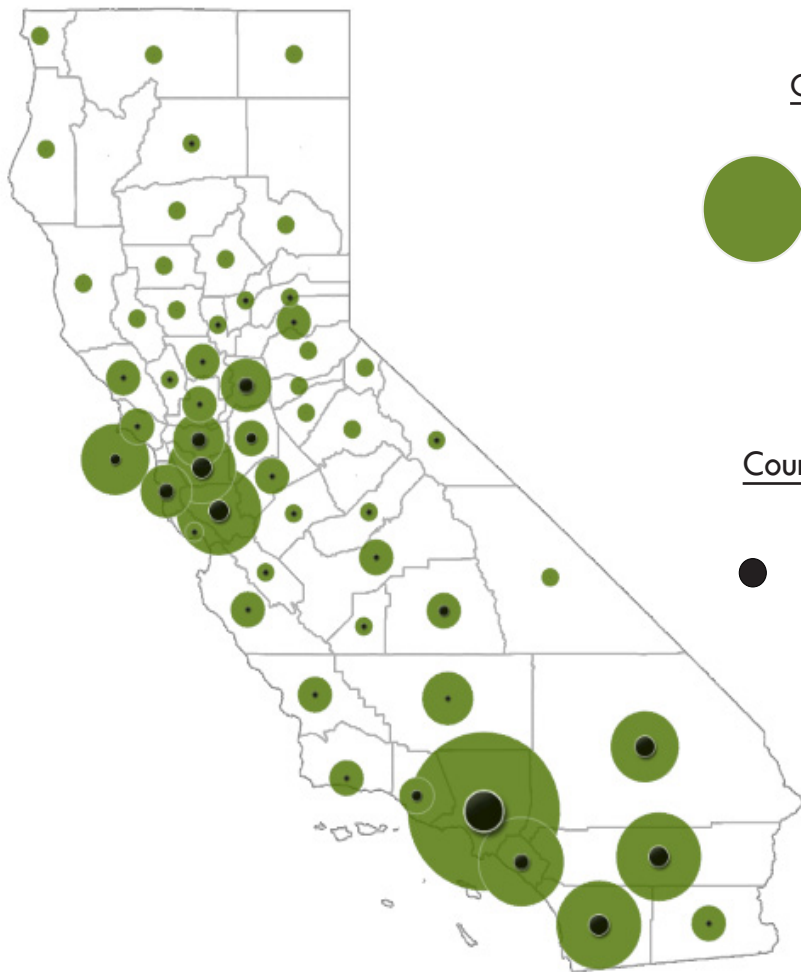

Of these, 51 patients have tested positive for COVID-19 and 564 have tested negative for COVID-19.

If you have any questions or concerns please contact:
