

Protect our Elders. Stay home. Save lives.

“Not too long ago, our communities endured new diseases such as small pox and other infections. We protected ourselves and our people to the best of our abilities. We must do this again in response to the newest coronavirus.

Please consider staying home, washing your hands often, and wearing a mask when around other people if you must go out. If you think you may be experiencing fever, cough, shortness of breath or other concerning symptoms, call your health clinic provider for advice.”

– Beverly Hunter, Chukchansi/Mono/Member of Table Mountain Rancheria and Chairwoman of the Committee for Traditional Indian Health
