## CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #156 OCTOBER 22, 2020

#### DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 41.1 million with more than 1.1 million deaths.

In the United States, the total number of cases stands at 8,312,667 and deaths at 221,438.

As many people in the United States begin to plan for fall and winter holiday celebrations, CDC offers the following considerations to help protect individuals and their families, friends, and communities from COVID-19. When planning to host a holiday celebration, you should assess current COVID-19 levels in your community to determine whether to postpone, cancel, or limit the number of attendees. For this year's Halloween guidance, please click HERE.

Simultaneous outbreaks of flu and COVID-19 will drain the state's health care resources. Getting a flu shot protects you and your family. To find a flu shot near you, click HERE.

The official COVID-19 mortality figures might be dramatically underestimating the real death toll of the pandemic in the U.S., according to a new report from the Centers for Disease Control and Prevention (CDC). From late January to early October, nearly 300,000 "excess deaths" occurring in America, the report authors estimate. Find the full report HERE.

Moderna, the first company to start U.S. clinical trials of a COVID-19 vaccine, on Thursday finished enrolling all 30,000 of its participants. All 30,000 have received their first shot, and most of them have also received the required second shot. The company's president says it's now on track to apply to the U.S. Food and Drug Administration for authorization to put the vaccine on the market in early December. Read about it HERE.

On October 16, the State of California released an interim draft of their COVID-19 Vaccination Plan. This document can be viewed HERE.

#### **UNITED STATES**

#### COVID-19: U.S. at a Glance\*

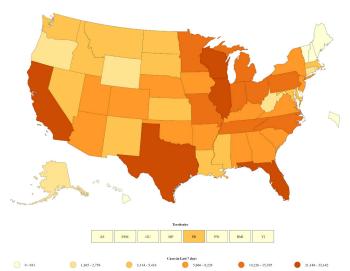

- Total cases: 8,312,667
- Total deaths: 221,438
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

\*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID19. State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

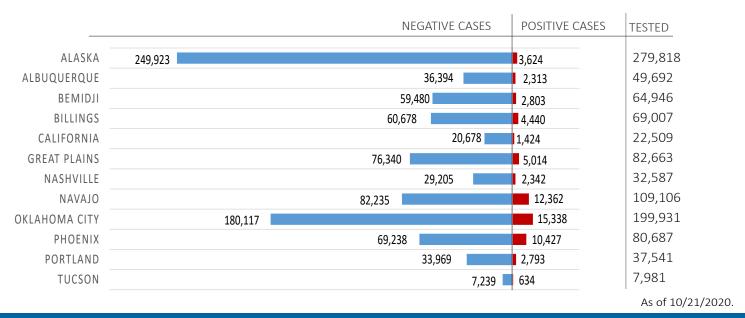

#### National Laboratory Testing Data

- Total tests reported: 137,040,404
- Positive tests reported: 10,128,214
- Percent of positive tests: 7%

## CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #156 OCTOBER 22, 2020

#### **CALIFORNIA**

As of October 21, 2020, there were a total of 880,724 positive cases and 17,187 deaths in California.

Ages of all confirmed positive cases:

• Age 0-17: 93,249 cases

• Age 18-49: 526,820 cases

• Age 50-64: 6,162 cases

• Age 65 and older: 93,662 cases

• Unknown/Missing: 845 cases

Gender of all confirmed positive cases:

• Female: 444,925 cases

• Male: 428,858 cases

• Unknown: 6,941 cases

Lab tests reported statewide: 17,358,770

Twenty-five public health labs in California are testing samples for COVID-19. These labs include the California Department of Public Health's Laboratory in Richmond, Alameda, Butte, Contra Costa, Fresno, Humboldt, Imperial, Long Beach, Los Angeles, Monterey, Napa-Solano-Yolo-Marin (located in Solano), Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Clara, Shasta, Sonoma, Tulare and Ventura County public health laboratories. The Richmond Laboratory will provide diagnostic testing within a 48-hour turnaround time. This means California public health officials will get test results sooner, so that patients will get the best care.

Click **HERE** to find your nearest testing site.

#### INDIAN HEALTH SERVICE CALIFORNIA AREA

22,509 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 10/21/2020.

Of these, 1,424 patients have tested positive for COVID-19 and 20,786 have tested negative for COVID-19.

#### CONFIRMED CASES AND DEATHS BY COUNTY

#### Counties with most reported cases

Los Angeles	288,096
Riverside	64,778
San Bernardino	59,948
Orange	<i>57</i> ,189
San Diego	53,279

#### Counties with most reported deaths

Los Angeles	6,944
Orange	1,423
Riverside	1,275
San Bernardino	1,065
San Diego	863

#### Racial distribution of confirmed COVID-19 cases and deaths in California

American Indians and Alaska Natives account for 0.5% percent of the population, 0.3% of COVID-19 cases, and 0.3% of deaths in California. This includes a total of 1,767 cases and 54 deaths among American Indian and Alaska Native people in California.

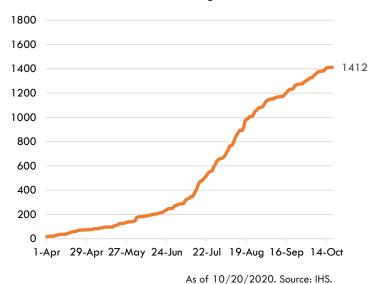

Latinos and African Americans are dying at disproportionately high rates in California. The proportion of COVID-19 deaths in Latinos is 1.3 times their population representation across all adult age categories.

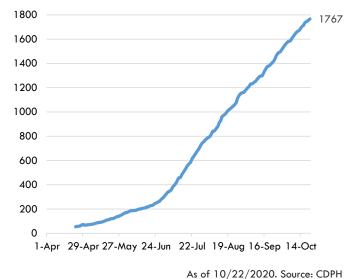

# Two sources for tracking American Indian and Alaska Native (AIAN) cases reported in California

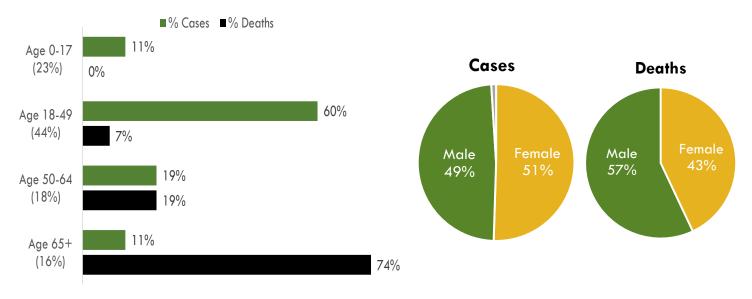

Data from the Indian Health Service (IHS) include positive cases reported by Tribal and Urban Indian Health Programs.

#### TRIBAL CASINOS

There are 66 tribal casinos in California. As of October 13, 2020, all of these casinos are open and operating.

#### TRIBAL HEAD START

Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB's COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.
