

CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #176 NOVEMBER 20, 2020

DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 56.62 million with more than 1.35 million deaths.

In the United States, the total number of cases stands at 11,650,817 and deaths at 251,715.

California is responding to rapidly rising case rates with an updated tier assignment framework. Learn about the changes [HERE](#).

California has released guidance for people traveling into and out of the state. Learn more [HERE](#).

As many people in the United States begin to plan for fall and winter holiday celebrations, CDC offers the following considerations to help protect individuals and their families, friends, and communities from COVID-19. For this year's Thanksgiving guidance, please click [HERE](#).

The Food and Drug Administration has authorized the first Covid-19 test designed for users to take and develop at home for results within an hour. The agency announced the emergency use authorization for the Lucira COVID-19 All-In-One Test Kit on Tuesday night. Learn more about this test [HERE](#).

The Indian Health Service remains committed to ensuring that Tribal nations have equitable access to COVID-19 vaccine. The IHS has released the IHS COVID-19 Pandemic Vaccine Plan November 2020. The IHS COVID-19 Pandemic Vaccine Plan November 2020 includes additional information about the IHS vaccine distribution process and requirements. The IHS Vaccine Task Force will continue to adapt the distribution planning process as new information and Federal guidance evolves. The IHS COVID-19 Pandemic Vaccine Plan is available on the IHS Web site [HERE](#).

UNITED STATES

COVID-19: U.S. at a Glance*

- Total cases: 11,650,817
- Total deaths: 251,715
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

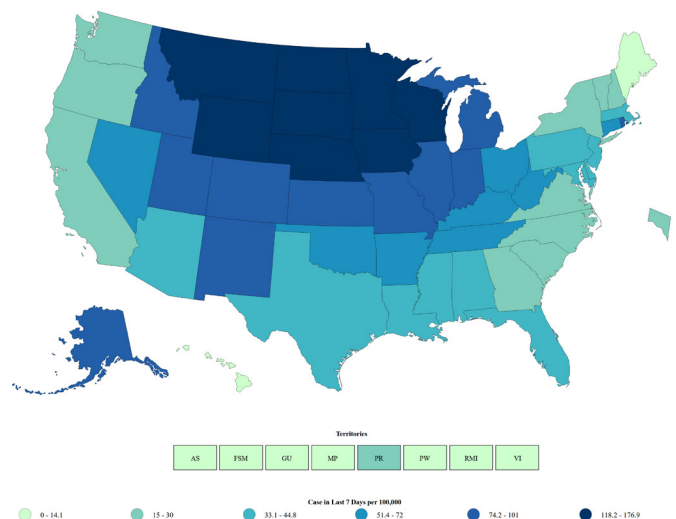

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19. State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

National Laboratory Testing Data

- Total tests reported: 171,739,267
- Positive tests reported: 13,184,037
- Percent of positive tests: 8%

CONFIRMED CASES AND DEATHS BY COUNTY

Counties with most reported cases

Los Angeles	349,493
San Bernardino	79,244
Riverside	78,535
San Diego	68,142
Orange	66,998

Counties with most reported deaths

Los Angeles	7,363
Orange	1,537
Riverside	1,396
San Bernardino	1,124
San Diego	952

TRIBAL CASINOS

There are 66 tribal casinos in California. As of October 13, 2020, all of these casinos are open and operating.

TRIBAL HEAD START

Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB's COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.

If you have any questions or concerns please contact:
Vanesscia Cresci at vcresci@crihb.org or Aurimar Ayala at aayala@crihb.org
