Globally, COVID-19 cases have surpassed 62.84 million with more than 1.46 million deaths.

In the United States, the total number of cases stands at 13,447,627 and deaths at 267,302.

COVID-19 is increasing at alarming rates in California and we all need to do our part to stop the surge. Effective November 21, stop non-essential activities between 10:00 pm to 5:00 am in counties in the Widespread (purple) tier. Read the order HERE. To see the updated county tier list as of November 28, click HERE.

All glove orders are being denied unless they are being requested for first responders, medical facilities, or COVID-19 testing sites. CAL OES is no longer able to fill any orders for nitrile gloves. Only vinyl gloves are available for those just mentioned. As of October 5, 2020, all PPE orders are subject to a prioritization review prior to allocation. Medical facilities, first responders, and COVID-19 testing sites will be prioritized over other requests. Please keep this in mind when ordering PPE through Cal OES.

The IHS has released the IHS COVID-19 Pandemic Vaccine Plan November 2020. The plan includes additional information about the IHS vaccine distribution process and requirements. The IHS Vaccine Task Force will continue to adapt the distribution planning process as new information and Federal guidance evolves. The IHS COVID-19 Pandemic Vaccine Plan is available on the IHS Web site HERE.

Join the National Indian Council on Aging, National Alliance for Caregiving and the Diverse Elders Coalition for a webinar focused on the needs of American Indian and Alaska Native caregivers in the time of COVID-19. The webinar will take place December 3, 2020 from 12:30-2:00 PM EST. For more information, click HERE.
**CORONAVIRUS DISEASE 2019 (COVID-19)**

**SITUATIONAL REPORT #181 DECEMBER 01, 2020**

**INDIAN HEALTH SERVICE CALIFORNIA AREA**

32,312 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 11/29/2020.

Of these, 2,209 patients have tested positive for COVID-19 and 28,531 have tested negative for COVID-19.

---

As of November 30, 2020, there were more than 1.22 million positive cases and a total of 19,211 deaths in California.

**Ages of all confirmed positive cases:**
- Age 0-17: 136,904 cases
- Age 18-49: 729,630 cases
- Age 50-64: 230,204 cases
- Age 65 and older: 127,432 cases
- Unknown/Missing: 1,019 cases

**Gender of all confirmed positive cases:**
- Female: 620,979 cases
- Male: 594,629 cases
- Unknown: 9,581 cases

Lab tests reported statewide: 24,161,313

Twelve-five public health labs in California are testing samples for COVID-19. These labs include the California Department of Public Health's Laboratory in Richmond, Alameda, Butte, Contra Costa, Fresno, Humboldt, Imperial, Long Beach, Los Angeles, Monterey, Napa-Solano-Yolo-Marin (located in Solano), Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Clara, Shasta, Sonoma, Tulare and Ventura County public health laboratories. The Richmond Laboratory will provide diagnostic testing within a 48-hour turnaround time. This means California public health officials will get test results sooner, so that patients will get the best care.

Racial distribution of confirmed COVID-19 cases and deaths in California

American Indians and Alaska Natives account for 0.5% percent of the population, 0.3% of COVID-19 cases, and 0.3% of deaths in California. This includes a total of 2,670 cases and 64 deaths among American Indian and Alaska Native people in California.

Latinos and African Americans are dying at disproportionately high rates in California. The proportion of COVID-19 deaths in Latinos is 1.3 times their population representation across all adult age categories.

Note: 28% of cases and 1% of deaths are of unknown race/ethnicity. As of 12/1/2020. Source: CDPH
Two sources for tracking American Indian and Alaska Native (AIAN) cases reported in California

Data from the Indian Health Service (IHS) include positive cases reported by Tribal and Urban Indian Health Programs.

Data from California Department of Public Health (CDPH) include all positive cases of AIAN diagnosed in California.

American Indian and Alaska Native (AIAN) data reported by California to the Centers for Disease Control and Prevention (CDC)

Positive COVID-19 cases among AIAN people in California by Age Group and Gender

- 0 to 9: 272 cases
- 10 to 19: 532 cases
- 20 to 29: 1,137 cases
- 30 to 39: 928 cases
- 40 to 49: 874 cases
- 50 to 59: 671 cases
- 60 to 69: 448 cases
- 70 to 79: 184 cases
- 80+: 110 cases

COVID-19 deaths among AIAN people in California by Age Group and Gender

- 0 to 9: 3 deaths (0.5%)
- 10 to 19: 7 deaths (0.7%)
- 20 to 29: 13 deaths (0.6%)
- 30 to 39: 18 deaths (0.8%)
- 40 to 49: 35 deaths (0.7%)
- 50 to 59: 49 deaths (0.8%)
- 60 to 69: 110 deaths (2.0%)
- 70 to 79: 184 deaths (3.3%)
- 80+: 532 deaths (9.7%)

CDC data show that AIAN in California are testing positive for COVID-19 at rates that are proportionate to their population in California but dying at rates that are higher. This includes a total of 5,162 cases and 125 deaths.
COVID-19 testing information from patients seen at a Tribal or Urban Indian Health Program in California

Updated 10/21/2020
TRIBAL CASINOS
There are 66 tribal casinos in California. As of October 13, 2020, all of these casinos are open and operating.

TRIBAL HEAD START
Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB’s COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.

If you have any questions or concerns please contact:
Vanesscia Cresci at vcresci@crihb.org or Aurimar Ayala at aayala@crihb.org
