

DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 72.19 million with more than 1.63 million deaths.

In the United States, the total number of cases stands at 16,519,668 and deaths at 302,992.

CA Notify lets you know if you might have been exposed to COVID-19 while preserving your privacy. You can add it to your phone [HERE](#).

The Indian Health Service is expecting to receive an initial allocation of 68,425 doses of COVID-19 vaccines. IHS supports CDC and the Advisory Committee on Immunization Practices recommendations for vaccine release, including prioritization of health care workers and residents of long-term-care facilities. To view the allocation numbers by IHS area, click [HERE](#).

California Health Officials announced a Regional Stay at Home Order triggered by ICU capacity. The public health order took effect at 12:59 p.m. on December 5. Under the new order, if a region falls below the 15 percent ICU threshold it will have 24 hours to implement the Stay at Home Order. Learn more about the actual ICU capacity remaining in each region [HERE](#).

The first COVID-19 vaccinations were being performed in California and other states around the country on Monday. Of the 2.9 million vaccines making their way across the country, more than 325,000 doses are headed to California. Read more about this developing story [HERE](#).

The White House Office of Intergovernmental Affairs, the Department for Health and Human Services, Indian Health Service and the Indian Country COVID-19 Response Team is hosting an Indian Country COVID-19 Update Call on Thursday, December 17 from 1:00 - 2:30 PM EST. Register [HERE](#).

UNITED STATES

COVID-19: U.S. at a Glance*

- Total cases: 16,519,668
- Total deaths: 302,992
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

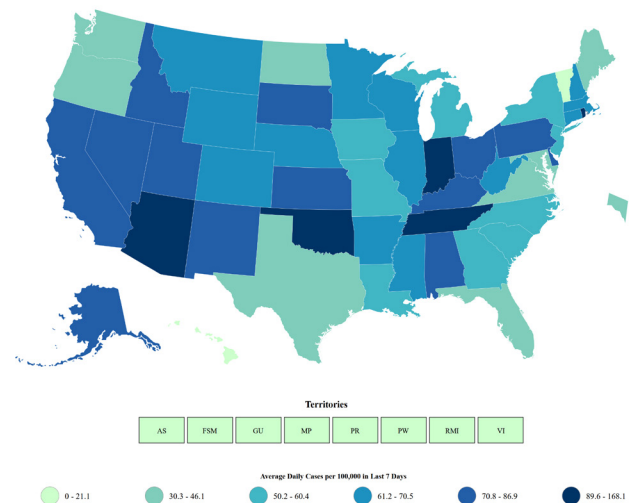

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

- meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or
 - meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or
 - meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19.
- State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

National Laboratory Testing Data

- Total tests reported: 217,786,555
- Positive tests reported: 18,024,740
- Percent of positive tests: 8%

CALIFORNIA

As of December 15, 2020, there were more than 1.67 million positive cases and a total of 21,481 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 195,429 cases
- Age 18-49: 989,940 cases
- Age 50-64: 313,464 cases
- Age 65 and older: 171,018 cases
- Unknown/Missing: 1,230 cases

Gender of all confirmed positive cases:

- Female: 845,211 cases
- Male: 806,004 cases
- Unknown: 19,866 cases

Lab tests reported statewide: 28,149,590

Twenty-five public health labs in California are testing samples for COVID-19. These labs include the California Department of Public Health's Laboratory in Richmond, Alameda, Butte, Contra Costa, Fresno, Humboldt, Imperial, Long Beach, Los Angeles, Monterey, Napa-Solano-Yolo-Marin (located in Solano), Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Clara, Shasta, Sonoma, Tulare and Ventura County public health laboratories. The Richmond Laboratory will provide diagnostic testing within a 48-hour turnaround time. This means California public health officials will get test results sooner, so that patients will get the best care.

Click [HERE](#) to find your nearest testing site.

INDIAN HEALTH SERVICE CALIFORNIA AREA

43,966 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 12/14/2020.

Of these, 3,207 patients have tested positive for COVID-19 and 38,235 have tested negative for COVID-19.

TRIBAL HEAD START

Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB's COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.

If you have any questions or concerns please contact:
Vanesscia Cresci at vcresci@crihb.org or Aurimar Ayala at aayala@crihb.org
