Don't Fear the Test

Taking a COVID-19 test might seem scary, but it's not a big deal when you know what to expect.

Do an online search for tests nearby.

Register to take the test.*

Call before you go for all the latest testing info.

Wait on appointment day.

When it's your turn, your test will take about 30 fast seconds...

The nurse comes with a nasal swab.

Then you pull your mask down.

Breathe out for 3-4 seconds.

"To me, the nasal swab felt cold like going outside on an icy winter day."

Mask up and leave.**

Schedule a COVID-19 test today. Tell your family and friends to schedule one, too.

*Not all testing sites have an option to register.

**Be sure to ask how to get your results.
