

CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #215 JANUARY 21, 2021

DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 95.6 million with more than 2 million deaths.

In the United States as of January 17, 2021, the total number of cases stands at 24,323,846 and deaths at 404,689.

Joseph R. Biden has been officially sworn in as the 46th President of the United States. View his plan to combat COVID-19 [HERE](#).

A more highly transmissible variant of SARS-CoV-2, B.1.1.7, has been detected in 10 U.S. states as of January 15, 2021. Modeling data indicate that B.1.1.7 has the potential to increase the U.S. pandemic trajectory in the coming months. The increased transmissibility of the B.1.1.7 variant warrants universal and increased compliance with mitigation strategies, including distancing and masking. Higher vaccination coverage might need to be achieved to protect the public. To view the full CDC MMWR report, click [HERE](#).

As California continues its health first approach to fight the COVID-19 pandemic amid an unprecedented surge, CDPH issued a new public health order to reduce pressure on strained hospital systems and redistribute the responsibility of medical care across the state so patients can continue to receive lifesaving care. The entire News Release is available [HERE](#).

UNITED STATES

COVID-19: U.S. at a Glance*

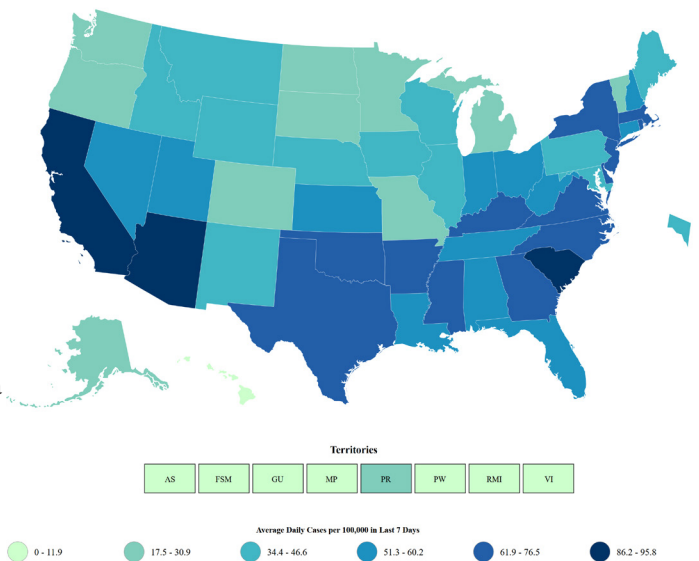

- Total cases: 24,323,846
- Total deaths: 404,689
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

- i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19.
- State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

National Laboratory Testing Data

- Total tests reported: 278,856,632
- Positive tests reported: 25,757,918
- Percent of positive tests: 9.2%

CALIFORNIA

As of January 20, 2021, there were a total of 3,039,044 positive cases and 35,004 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 383,407
- Age 18-49: 1,757,542
- Age 50-64: 577,746
- Age 65 and older: 318,359
- Unknown/Missing: 1,990

Gender of all confirmed positive cases:

- Female: 1,543,711
- Male: 1,447,072
- Unknown: 48,261

Lab tests reported statewide: 39,512,756

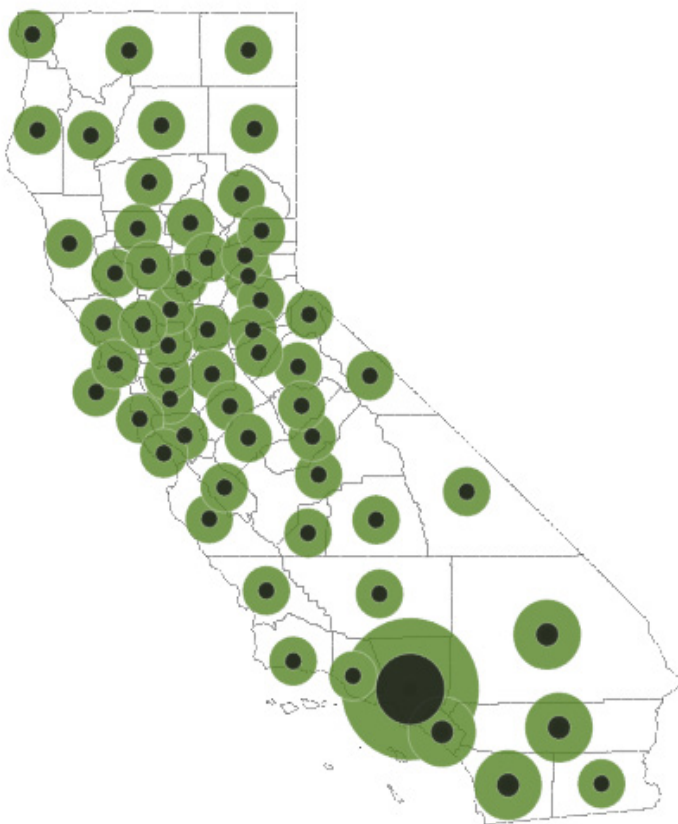

Numerous public health labs in California are testing for COVID-19 samples. Click [HERE](#) to find your nearest testing site.

INDIAN HEALTH SERVICE CALIFORNIA AREA

60,135 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 1/19/2021.

Of these, 6,181 patients have tested positive for COVID-19 and 50,517 have tested negative for COVID-19.

CONFIRMED CASES AND DEATHS BY COUNTY

Counties with most reported cases

Los Angeles	1,015,608
San Bernardino	255,921
Riverside	248,686
San Diego	218,553
Orange	216,893

Counties with most reported deaths

Los Angeles	14,384
Riverside	2,676
Orange	2,508
San Diego	2,174
San Bernardino	1,560

TRIBAL HEAD START

Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB's COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.

If you have any questions or concerns please contact:
Vanesscia Cresci at vcresci@crihb.org or Aurimar Ayala at aayala@crihb.org
