

CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #220 JANUARY 28, 2021

DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 100.2 million with more than 2.1 million deaths.

In the United States, the total number of cases stands at 25,456,670 and deaths at 427,626.

Urban Indian Health Institute (UIHI) administered an online survey to better understand COVID-19 vaccine attitudes, knowledge, and perceptions among American Indians and Alaska Natives nationwide. Some key findings include that the primary motivation for participants who indicated willingness to get vaccinated was a strong sense of responsibility to protect the Native community and preserve cultural ways, 75% of participants were willing to receive a COVID-19 vaccine, and 72% of participants wanted evidence that the vaccine is safe right now and in the long term. Read the report [HERE](#).

Get notified when it's your turn to get the COVID-19 vaccine at myturn.ca.gov.

The California Department of Public Health (CDPH), in coordination with Santa Clara County and the University of California San Francisco (UCSF), announced that an L452R variant of COVID-19 is increasingly being identified by viral genomic sequencing in multiple counties across the state. Read more about the COVID-19 variant [HERE](#).

CDPH updated the Hospital Surge Public Health Order on Jan. 15 to clarify when hospitals must make notifications to state and local authorities. The order also includes technical updates and updates on when specific terms of the order take effect. View the amended order [HERE](#).

Officials with the California Department of Public Health (CDPH) have ended the Regional Stay at Home Order, lifting the order for all regions statewide. You can find the full news release [HERE](#).

UNITED STATES

COVID-19: U.S. at a Glance*

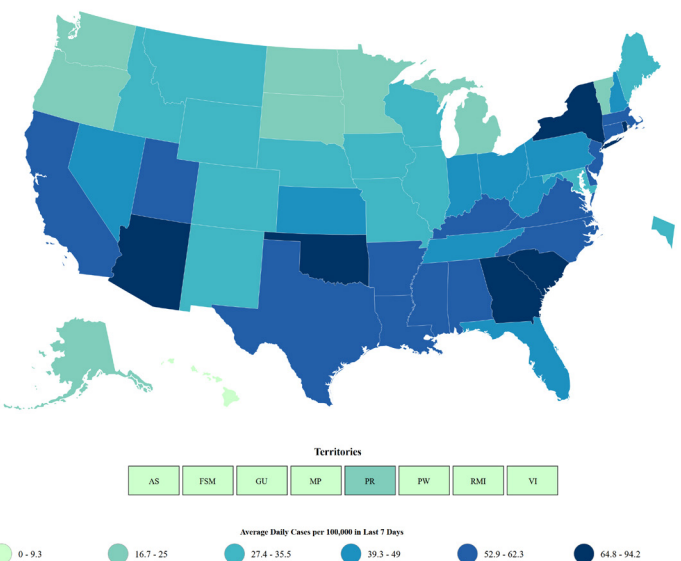

- Total cases: 25,456,670
- Total deaths: 427,626
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19. State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

National Laboratory Testing Data

- Total tests reported: 290,098,765
- Positive tests reported: 26,833,248
- Percent of positive tests: 9.3%

Tucson	1300	900	2200
			293600

CALIFORNIA

As of January 27, 2021, there were a total of 3,186,610 positive cases and 38,961 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 404,631
- Age 18-49: 1,837,255
- Age 50-64: 606,779
- Age 65 and older: 335,853
- Unknown/Missing: 2,092

Gender of all confirmed positive cases:

- Female: 1,618,782
- Male: 1,518,121
- Unknown: 49,707

Lab tests reported statewide: 41,470,634

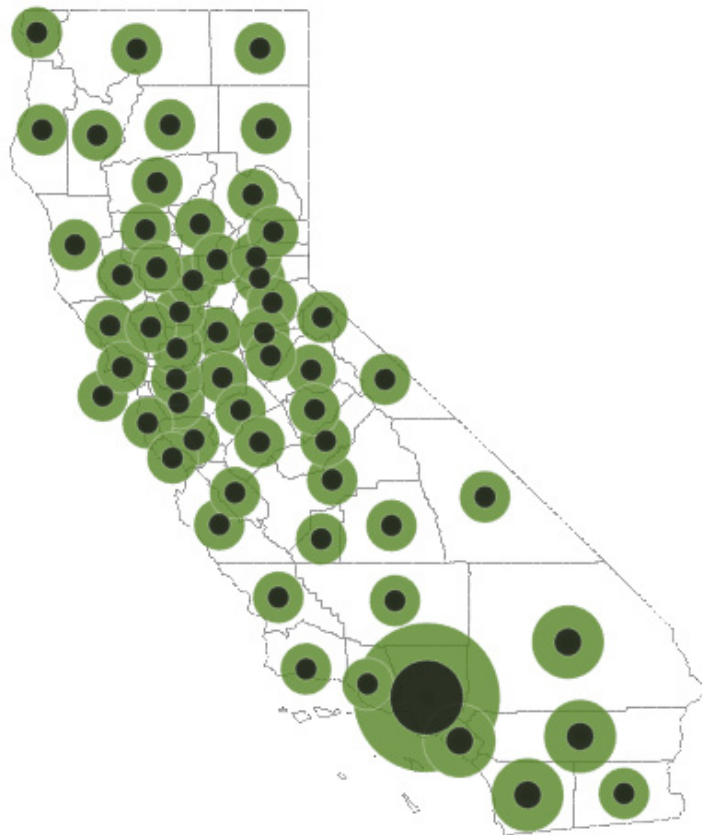

Numerous public health labs in California are testing for COVID-19 samples. Click [HERE](#) to find your nearest testing site.

INDIAN HEALTH SERVICE CALIFORNIA AREA

62,172 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 1/26/2021.

Of these, 6,465 patients have tested positive for COVID-19 and 52,359 have tested negative for COVID-19.

CONFIRMED CASES AND DEATHS BY COUNTY

Counties with most reported cases

Los Angeles	1,066,569
San Bernardino	265,153
Riverside	260,796
San Diego	231,478
Orange	227,110

Counties with most reported deaths

Los Angeles	15,897
Riverside	3,003
Orange	2,839
San Diego	2,465
San Bernardino	1,746

TRIBAL HEAD START

Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB's COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.

If you have any questions or concerns please contact:
Vanesscia Cresci at vcresci@crihb.org or Aurimar Ayala at aayala@crihb.org
