

# #ProtectOurElders

Melinda and Priscilla Hunter,  
Coyote Valley Band of Pomo Indians

CONSIDER  
STAYING HOME

WASH HANDS  
FREQUENTLY

WEAR FACE  
COVERINGS

We need to take responsibility for  
**KEEPING OUR ELDERLY SAFE.**  
Our elders are keepers of our traditions,  
stories, songs, and language.

# #CovidVaccineSavesLives

Both vaccines have mild and temporary side effects, including pain at the injection site, headache, fever, fatigue, chills, and muscle and joint pain. Individuals with severe allergic reactions to other vaccines should consult their doctor in case they may be allergic to a component of the vaccine. They should be observed for 30 minutes following injection rather than the usual 15 minutes. It is recommended that individuals who carry an EpiPen for their allergies should bring it to their appointment. CDC notes that women who are pregnant or breastfeeding can be presented the option to vaccinate, but first talk to your health care practitioner if you have any concerns about whether you should receive it.
