

DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 102.3 million with more than 2.2 million deaths.

In the United States, the total number of cases stands at 26,034,475 and deaths at 439,955.

The Centers for Disease Control and Prevention (CDC) has released their February 1, 2021 Morbidity and Mortality Weekly Report (MMWR) that shows demographic characteristics of persons vaccinated during the first month of the COVID-19 vaccination program. The report shows that 134,127 American Indian and Alaska Natives (AIAN) initiated COVID-19 vaccination from December 14, 2020-January 14, 2021. To view the full report, click [HERE](#).

In his first days in office, President Joe Biden signed several Executive Orders (EOs) and released a National Strategy for the COVID-19 Response and Pandemic Awareness. In some areas, the EOs bring opportunities for advocacy ensuring American Indian and Alaska Native (AIAN) voices are heard. The EOs also bring opportunities for consultation with the federal government to improve testing, vaccination, and treatment for patients using the Indian health care system. Read the NIHB's summary [HERE](#).

Urban Indian Health Institute (UIHI) administered an online survey to better understand COVID-19 vaccine attitudes, knowledge, and perceptions among American Indians and Alaska Natives nationwide. Some key findings include that the primary motivation for participants who indicated willingness to get vaccinated was a strong sense of responsibility to protect the Native community and preserve cultural ways, 75% of participants were willing to receive a COVID-19 vaccine, and 72% of participants wanted evidence that the vaccine is safe right now and in the long term. Read the report [HERE](#).

Get notified when it's your turn to get the COVID-19 vaccine at myturn.ca.gov.

UNITED STATES

COVID-19: U.S. at a Glance*

- Total cases: 26,034,475
- Total deaths: 439,955
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

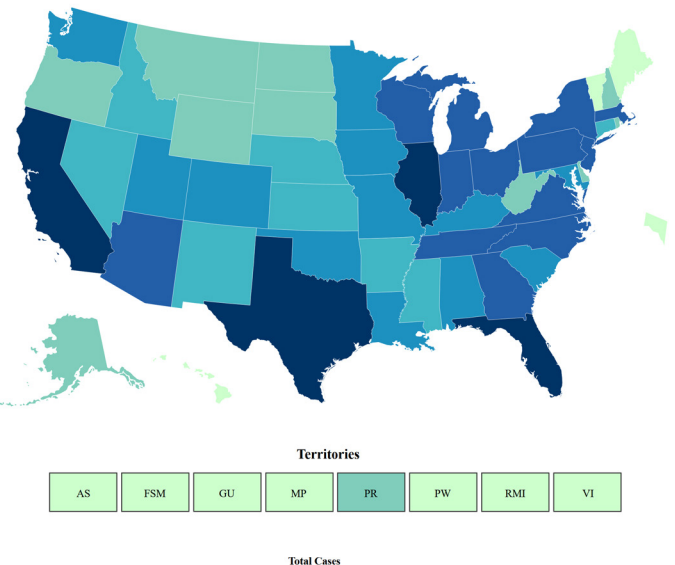

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

- meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or
 - meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or
 - meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19.
- State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

National Laboratory Testing Data

- Total tests reported: 296,904,601
- Positive tests reported: 27,416,387
- Percent of positive tests: 9.2%

Grand Total	252875	171325	424200

CALIFORNIA

As of January 31, 2021, there were a total of 3,258,706 positive cases and 40,908 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 414,991
- Age 18-49: 1,876,071
- Age 50-64: 621,018
- Age 65 and older: 344,502
- Unknown/Missing: 2,124

Gender of all confirmed positive cases:

- Female: 1,655,273
- Male: 1,553,217
- Unknown: 50,216

Lab tests reported statewide: 42,569,193

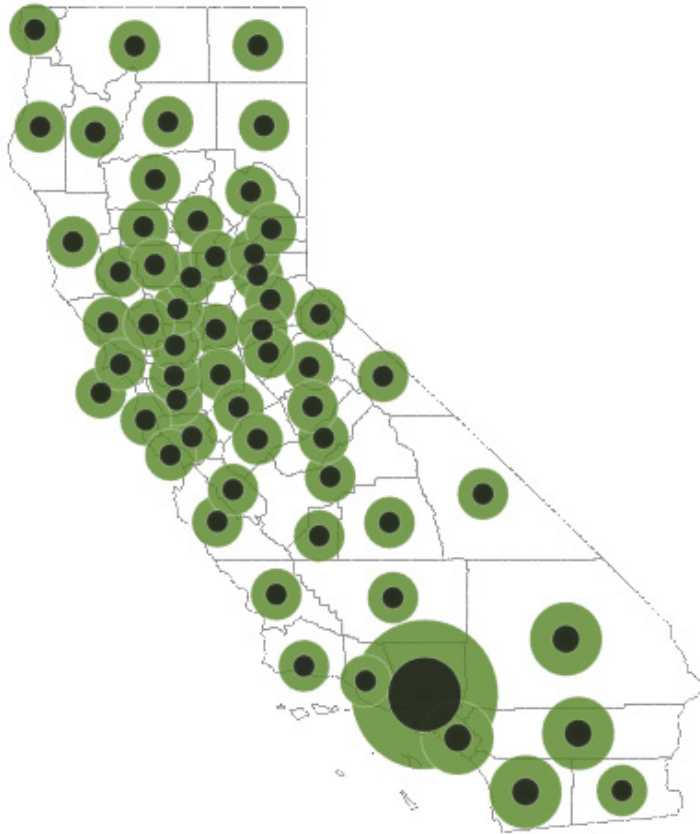

Numerous public health labs in California are testing for COVID-19 samples. Click [HERE](#) to find your nearest testing site.

INDIAN HEALTH SERVICE CALIFORNIA AREA

63,022 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 1/30/2021.

Of these, 6,552 patients have tested positive for COVID-19 and 53,001 have tested negative for COVID-19.

TRIBAL HEAD START

Beginning in early September 2020, some Tribal early childhood education programs, such as Head Start, will begin reopening either in person, virtually, or in combination of both (i.e. hybrid program). Please check with local school districts, Tribes, or Lead Agencies for start dates.

Note: CRIHB's COVID response team will continue to monitor these tribal programs and facilities as the situation progresses.

If you have any questions or concerns please contact:
Vanesscia Cresci at vcresci@crihb.org or Aurimar Ayala at aayala@crihb.org
