Globally, COVID-19 cases have surpassed 118.2 million with more than 2.6 million deaths.

In the United States, the total number of cases stands at 29,113,651 and deaths at 529,301.

The Centers for Disease Control and Prevention (CDC) has released their Morbidity and Mortality Weekly Report (MMWR) for March 10. It was found that disparities in COVID-19 incidence were substantial during January-April and generally decreased during May-December, largely because of a greater increase in incidence among White persons. The largest persistent disparities involved Native Hawaiian and Pacific Islander, American Indian or Alaska Native (AIAN), and Hispanic persons. From January 1-April 30, 2020, AIAN were 4.62 times more likely to get COVID-19 than non-Hispanic Whites. The full report is available HERE.

The CDC, in partnership with Boston Children's Hospital and Castlight Health, is launching a new tool that allows Americans to search for COVID-19 vaccine providers with stock of vaccine where they live. The tool, which builds on the existing VaccineFinder.org platform, will capture inventory data from vaccine providers around the country. To use the tool, click HERE.

Get notified when it’s your turn to get the COVID-19 vaccine at myturn.ca.gov.

CRIHB has launched its #CovidVaccineSavesLives campaign. The campaign includes posters, public service announcements, and informational flyers. These posters include Tribal community member from across California. You are welcome to download the posters HERE. Our COVID vaccine informational flyers can be found HERE. Our existing COVID-related PSAs can be found on our YouTube channel HERE.
