

# Wear a face covering to ni-wükawa (*protect us*)

Ü-Dübba-neika a-woboa  
(*cover your mouth*)

Leticia Gonzales,  
Bishop Paiute Tribe  
UNITY Peer Guide and former  
Miss Bishop Paiute Tribe

“

*The COVID-19 vaccine can protect our elders, families, and children as they are the future generation. Wear a face covering to protect our Tribal communities.*

**The Moderna, Pfizer, and Janssen vaccines have mild and temporary side effects, including pain at the injection site, headache, fever, fatigue, chills, and muscle and joint pain. Individuals with severe allergic reactions to other vaccines should consult their doctor in case they may be allergic to a component of the vaccine. They should be observed for 30 minutes following injection rather than the usual 15 minutes. Individuals who carry an EpiPen for their allergies should bring it to their appointment. CDC notes that women who are pregnant or breastfeeding can be presented the option to vaccinate, but first talk to your health care practitioner if you have any concerns about whether you should receive it.**
