

# CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #308 JUNE 23, 2021

## DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 178.8 million with more than 3.8 million deaths.

In the United States, the total number of cases stands at 33,395,620 and deaths at 600,7086.

On Tuesday, June 16, the Biden Administration announced an additional investment of \$1.8 billion in American Rescue Plan (ARP) funding to combat COVID-19 in Indian Country. This is in addition to an investment of more than \$4 billion that was announced in April 2021. These funds are one-time, non-recurring, and can only be used for the purposes specified in the statute. According to the June 16, IHS Dear Tribal Leader Letter, these funds “may also cover obligations for purposes specified in the statute that were incurred to prevent, prepare for, and respond to COVID-19 during the period beginning January 31, 2020, through March 11, 2021.” Read more [HERE](#).

Now you can show digital proof of your vaccination. If you were vaccinated in California, go to Digital COVID-19 Vaccine Record and enter your info to access it. Get your record [HERE](#).

Fully vaccinated Californians won't have to wear masks in the workplace after state regulators voted to end mask requirements and the governor immediately signed an executive order to allow the changes to quickly take effect. The new rule was adopted by the state Division of Occupational Safety and Health (Cal/OSHA). No face coverings will be required outdoors, regardless of vaccination status. While it is not required for employers to retain copies of vaccination cards, employers must document vaccination status. Self-attestation by employees will be allowed. Physical distancing requirements were also eliminated under the new rule.

Vaccinations open to all Californians aged 12 and up. Book your shots [HERE](#).

## UNITED STATES

### COVID-19: U.S. at a Glance\*

- Total cases: 33,395,620
- Total deaths: 600,086
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

\*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

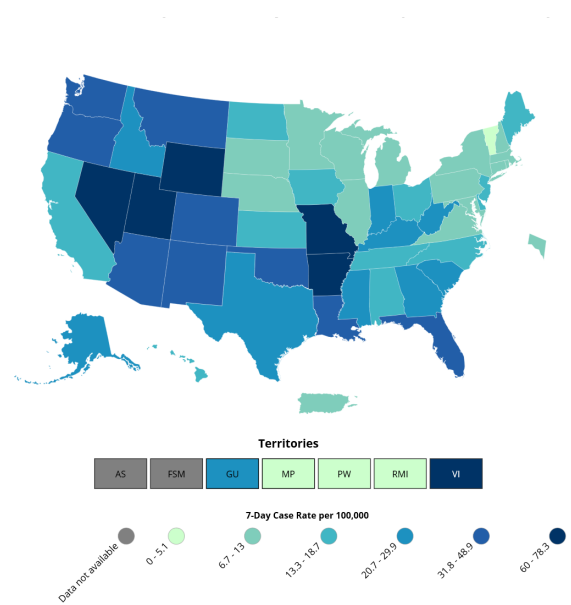

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:

- i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19.
- State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

### National Laboratory Testing Data

- Total tests reported: 463,252,297
- Positive tests reported: 35,588,686
- Percent of positive tests (7-day): 1.7%

# CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #308 JUNE 23, 2021

## RISK FOR COVID-19 INFECTION, HOSPITALIZATION, & DEATH BY RACE/ETHNICITY, U.S.

As of June 17, 2021, the table to the right shows that AIAN still have higher rates of COVID-19 infection, hospitalization, and death from COVID-19 than any other race/ethnicity group.

Rate ratios compared to White, Non-Hispanic persons	American Indian or Alaska Native, Non-Hispanic persons	Asian, Non-Hispanic persons	Black or African American, Non-Hispanic persons	Hispanic or Latino persons
Cases <sup>1</sup>	1.6x	0.7x	1.1x	2.0x
Hospitalization <sup>2</sup>	3.3x	1.0x	2.9x	2.8x
Death <sup>3</sup>	2.4x	1.0x	2.0x	2.3x

## COVID-19 CASES BY IHS AREA

	NEGATIVE CASES	POSITIVE CASES	TESTED
ALASKA	551,405	12,379	643,919
ALBUQUERQUE	70,180	8,283	99,482
BEMIDJI	160,555	11,974	175,360
BILLINGS	92,208	7,508	103,005
CALIFORNIA	76,615	8,324	88,271
GREAT PLAINS	134,883	14,439	149,839

NAVAJO	186,164	32,469	266,733
OKLAHOMA CITY	459,224	61,652	525,535
PHOENIX	164,226	24,429	189,247
PORTLAND	120,841	8,466	129,699
TUCSON	25,227	2,821	28,202

\*as of 11:59PM EST June 20, 2021

## CALIFORNIA

As of June 23, 2021, there were a total of 3,705,427 positive cases and 62,741 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 481,706
- Age 18-49: 2,112,093
- Age 50-64: 704,031
- Age 65 and older: 407,597

Gender of all confirmed positive cases:

- Female: 1,889,768
- Male: 1,778,605
- Unknown: 37,054

Lab tests reported statewide\*: 68,799,509

\*as of 6/22/21

Numerous public health labs in California are testing for COVID-19 samples. Click [HERE](#) to find your nearest testing site.

## INDIAN HEALTH SERVICE CALIFORNIA AREA

88,271 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 6/20/2021.

Of these, 8,324 patients have tested positive for COVID-19 and 76,615 have tested negative for COVID-19.

CONFIRMED CASES AND DEATHS BY COUNTY

Counties with most reported cases

Los Angeles	1,206,146
San Bernardino	293,770
Riverside	289,839
San Diego	281,867
Orange	255,452

Counties with most reported deaths

Los Angeles	24,461
Orange	5,114
San Bernardino	4,873
Riverside	4,456
San Diego	3,771

## American Indian and Alaska Native (AIAN) data reported by California to the Centers for Disease Control and Prevention (CDC)

California Department of Public Health reports COVID-19 data on American Indian and Alaska Native (AIAN) people that only identify in one racial category. Below is a comparison using CDC's data on AIAN cases and deaths in California by racial classification, using a more restrictive definition (AIAN alone) versus a more comprehensive definition (AIAN in combination with other races/ethnicities).

	Cases	Deaths
<b>AIAN alone</b>	<b>6,517</b>	<b>201</b>
<b>AIAN in combination</b>	<b>28,932</b>	<b>494</b>

# COVID-19 testing information from patients seen at a Tribal or Urban Indian Health Program in California

Note: This map shows patients by the regional location of the clinic where they were tested and NOT by the residence of the patients.

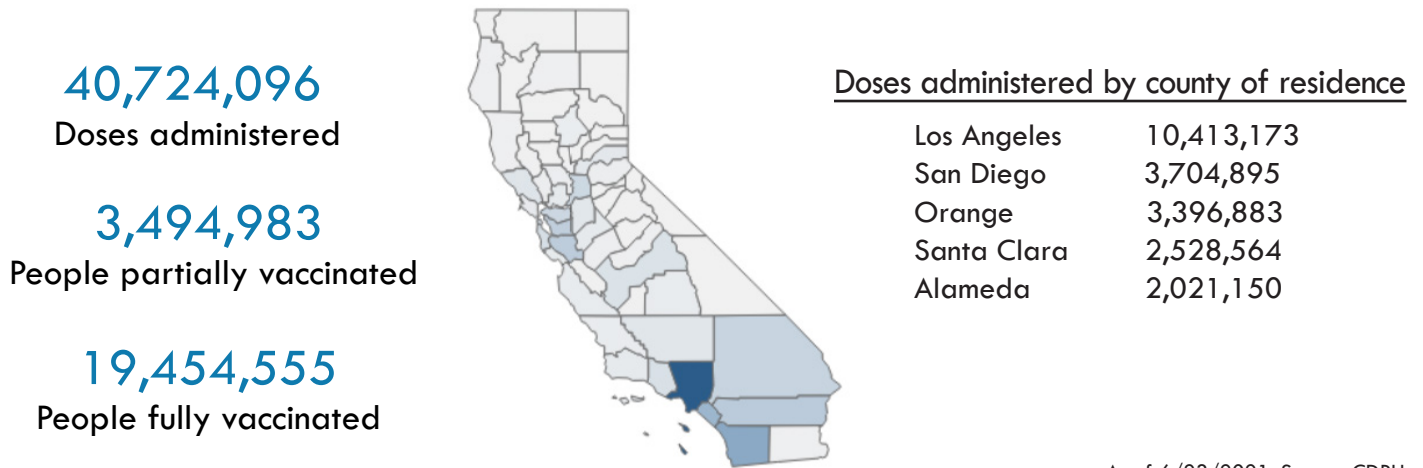

Number of positive cases identified by region

## Two sources for tracking American Indian and Alaska Native (AIAN) vaccinations administered in California

Data from [California Department of Public Health \(CDPH\)](#) does not include vaccines administered by Federal entities such as **Indian Health Service**, Department of Defense, U.S. Federal Bureau of Prisons, and Veterans Affairs.

Racial distribution of people with at least one dose of vaccine administered in California

Note: "Other" means those who don't fall under any race or ethnicity. "Unknown" includes those who declined to state or whose race and ethnicity information is missing. As of 6/23/2021. Source: CDPH

Data from the [Indian Health Service \(IHS\)](#) shows the total number of vaccine doses (Pfizer, Moderna, and Johnson & Johnson/Janssen) distributed and administered by IHS Area to date

Area	Total Doses Distributed	Total Doses Administered
Albuquerque	131,065	124,595
Bemidji	151,785	117,099
Billings	59,995	41,589
California	220,205	147,507
Great Plains	125,930	81,923
Nashville	90,455	67,751
