

CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #315 JULY 14, 2021

DAILY HIGHLIGHTS

Globally, COVID-19 cases have surpassed 187.5 million with more than 4 million deaths.

In the United States as of July 13, the total number of cases stands at 33,726,363 and deaths at 605,140.

As of July 7, 2021, 70,670 samples have been sequenced in California. The delta variant makes up 42.9% of specimens sequenced that are variants of concern or variants of interest. The alpha variant makes up 30.6% and the gamma variant makes up 15.4%. You can view CDPH track these variants [HERE](#).

Join National Telecommunications and Information Administration (NTIA) Tribal broadband specialist team on July 21 and July 22, 2021, to hear more about the Tribal Broadband Connectivity Program (TBCP). The TBCP makes grants available to eligible entities, which include a Tribal Government, a Tribal College or University, the Department of Hawaiian Home Lands on behalf of the Native Hawaiian Community, including Native Hawaiian Education Programs, a Tribal organization, or an Alaska Native Corporation, for the deployment and adoption of broadband service on Tribal Land and for programs that promote the use of broadband to access remote learning, telework, or telehealth resources during the COVID-19 pandemic. On Wednesday, July 21, 2021, from 2:30 – 4:00 p.m. EST, NTIA will be hosting a webinar on the TBCP application process. During this webinar NTIA staff will guide potential applicants through the forms and documentation required for a complete TBCP grant application. At the conclusion of this webinar, NTIA staff will host a Q&A session for attendees. To register for this webinar, please click [HERE](#). On Thursday, July 22, 2021, from 2:30 – 4:00 p.m. EST, NTIA and the Bureau of Indian Affairs (BIA), will be co-hosting a webinar on hot topics pertaining to the TBCP application. During this webinar the NTIA Tribal broadband specialist team will discuss workforce development, network sustainability, digital inclusion, technical and financial feasibility aspects of potential projects, NHPA, NEPA, and permitting. At the conclusion of this webinar, NTIA and BIA will host a Q&A session for attendees. To register for this webinar, please click [HERE](#).

UNITED STATES

COVID-19: U.S. at a Glance* (as of 7/13/21)

- Total cases: 33,726,363
- Total deaths: 605,140
- Jurisdictions reporting cases: 55 (50 states, District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands)

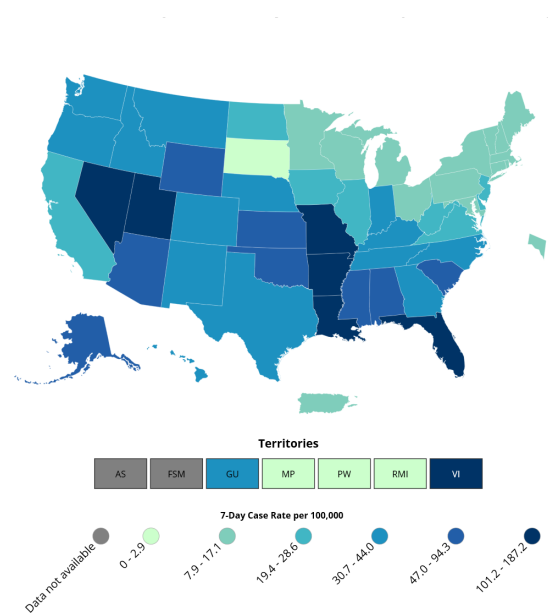

*As of April 14, 2020, CDC case counts and death counts include both confirmed and probable cases and deaths. This change was made to reflect an interim COVID-19 position statement issued by the Council for State and Territorial Epidemiologists on April 5, 2020.

A confirmed case or death is defined by meeting confirmatory laboratory evidence for COVID-19.

A probable case or death is defined by:
i) meeting clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19; or ii) meeting presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence; or iii) meeting vital records criteria with no confirmatory laboratory testing performed for COVID-19. State and local public health departments are now testing and publicly reporting their cases. In the event of a discrepancy between CDC cases and cases reported by state and local public health officials, data reported by states should be considered the most up to date.

National Laboratory Testing Data

- Total tests reported: 474,574,400
- Positive tests reported: 35,922,693
- Percent of positive tests (7-day): 3.8%

CORONAVIRUS DISEASE 2019 (COVID-19) SITUATIONAL REPORT #315 JULY 14, 2021

RISK FOR COVID-19 INFECTION, HOSPITALIZATION, & DEATH BY RACE/ETHNICITY, U.S.

As of June 17, 2021, the table to the right shows that AIAN still have higher rates of COVID-19 infection, hospitalization, and death from COVID-19 than any other race/ethnicity group.

Rate ratios compared to White, Non-Hispanic persons	American Indian or Alaska Native, Non-Hispanic persons	Asian, Non-Hispanic persons	Black or African American, Non-Hispanic persons	Hispanic or Latino persons
Cases ¹	1.6x	0.7x	1.1x	2.0x
Hospitalization ²	3.3x	1.0x	2.9x	2.8x
Death ³	2.4x	1.0x	2.0x	2.3x

COVID-19 CASES BY IHS AREA

*as of 11:59PM EST July 10, 2021

CALIFORNIA

As of July 14, 2021, there were a total of 3,740,092 positive cases and 63,508 deaths in California.

Ages of all confirmed positive cases:

- Age 0-17: 486,212
- Age 18-49: 2,131,852
- Age 50-64: 710,617
- Age 65 and older: 411,410

Gender of all confirmed positive cases:

- Female: 1,907,447
- Male: 1,795,244
- Unknown: 37,401

Lab tests reported statewide*: 71,222,071

*as of 7/13/21

Numerous public health labs in California are testing for COVID-19 samples. Click [HERE](#) to find your nearest testing site.

INDIAN HEALTH SERVICE CALIFORNIA AREA

90,301 Tribal or Urban Indian Health Program patients in the California Area have been tested for COVID-19 as of 7/10/2021.

Of these, 8,427 patients have tested positive for COVID-19 and 78,594 have tested negative for COVID-19.

CONFIRMED CASES AND DEATHS BY COUNTY

Counties with most reported cases

Los Angeles	1,217,184
San Bernardino	295,596
Riverside	294,302
San Diego	284,997
Orange	257,339

Counties with most reported deaths

Los Angeles	24,569
Orange	5,183
San Bernardino	5,136
Riverside	4,541
San Diego	3,785

American Indian and Alaska Native (AIAN) data reported by California to the Centers for Disease Control and Prevention (CDC)

Positive COVID-19 cases among AIAN people in California by Age Group and Gender

COVID-19 deaths among AIAN people in California by Age Group and Gender

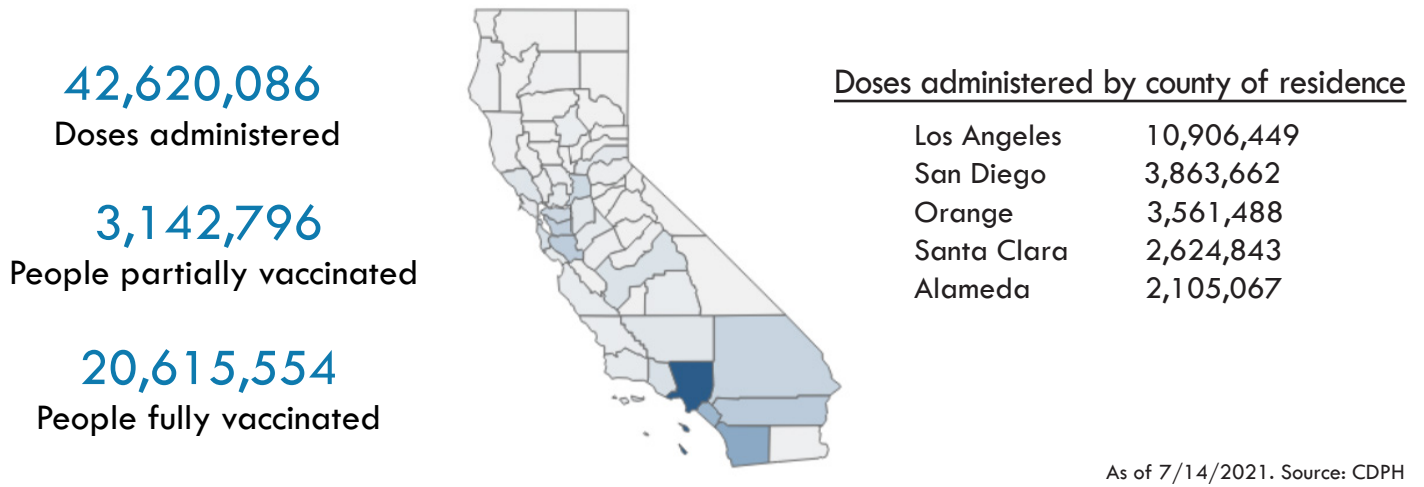

California Department of Public Health reports COVID-19 data on American Indian and Alaska Native (AIAN) people that only identify in one racial category. Below is a comparison using CDC's data on AIAN cases and deaths in California by racial classification, using a more restrictive definition (AIAN alone) versus a more comprehensive definition (AIAN in combination with other races/ethnicities).

	Cases	Deaths
AIAN alone	6,609	204
AIAN in combination	29,333	512

Two sources for tracking American Indian and Alaska Native (AIAN) vaccinations administered in California

Data from [California Department of Public Health \(CDPH\)](#) does not include vaccines administered by Federal entities such as **Indian Health Service**, Department of Defense, U.S. Federal Bureau of Prisons, and Veterans Affairs.

Racial distribution of people with at least one dose of vaccine administered in California

Note: "Other" means those who don't fall under any race or ethnicity. "Unknown" includes those who declined to state or whose race and ethnicity information is missing. As of 7/14/2021. Source: CDPH

Data from the [Indian Health Service \(IHS\)](#) shows the total number of vaccine doses (Pfizer, Moderna, and Johnson & Johnson/Janssen) distributed and administered by IHS Area to date

Area	Total Doses Distributed	Total Doses Administered
Albuquerque	131,165	133,678
Bemidji	152,885	123,796
Billings	61,795	45,690
California	221,605	154,454
Great Plains	127,080	90,493
Nashville	91,355	71,792
Navajo	254,105	233,987
Oklahoma City	441,410	368,258
Phoenix	175,400	150,901
Portland	96,545	75,694
Tucson	12,070	8,366
